# Yayson Olivares Herrera

Web Developer at Town Hall of Nogales

## About me:

I am a self-taught web developer who loves teaching and working in groups, if i am not developing something interesting you can find me whatching nicely colored cars going around worlwide recognized tracks, or teaching code to newcomers.

## Experience

2020/08 - Until now

Web developer / Web designer at Town Hall of Nogales

My functions were to redesign the webpage of the Town Hall giving it a user oriented experience allowing people to know more about the office procedures without the need attending presentially this on the Covid-19 background, preventing contagion focuses.

on the technical side the web was a reactjs based site with a mobile view and a low-speed network orientation wich it's the usual speed of the local population.

2020/05 2020/07

Beta Tester for ThisCodeWorks on the Save Code Extension

My functions were mainly to test the Beta version of the Save Code Chrome Extension an interesting extension that allows the end user to save Code snippets easily by the advance of the project i started to contribute to it giving it design guidelines based on the ThisCodeWorks webpage so it became more friendly with the end user also helped to solve critical logic problems that appeared on the early versions.

\*As a developer i always have the learning mindset so if a required tech it's not listed here i will be open and happy to learn it.
